

Solutions for your environment

With more than 60 factories in 24 countries and sales companies and agents in over 75 countries, the Danfoss Group is a global industry. Danfoss employs more than 21,000 people around the world and about one-third of them work in Denmark.

The solutions

At Danfoss, respect for the company's basic values is united with ongoing innovation and a future-orientated approach. These qualities have created a global company with committed employees.

Danfoss technology improves quality of life for people all over the world. Clean water, heating and cooling are key to our sense of well-being. With a broad range of products and high-technology solutions within Refrigeration & Air Conditioning, Heating and Motion Controls, Danfoss is indispensable in our modern lives, both at home and at work.

The solutions meet the needs of the customers, within areas as diverse as food preservation, productivity, energy efficiency, the environment and climate control. Our resource-saving products look to the future, where there will be

increasing focus on environmental considerations and the scarce resources of nature.

The Vision

Danfoss will be a global leader within our core businesses, as a highly respected company, which improves quality of life by mastering advanced technologies in customer applications while creating value for all stakeholders.
