

10 years at the forefront of the carbon market

EcoSecurities is one of the world's leading companies in the business of sourcing, developing and trading carbon credits.

Established in 1997, today EcoSecurities has a network of offices and representatives in over 20 countries, and has amassed one of the industry's largest and most diversified portfolios of carbon projects.

Over the last ten years, EcoSecurities has been involved in the development of many of the global carbon market's most important milestones, including developing the world's first CDM project to be registered under the Kyoto Protocol and the first CDM project to receive carbon credits in the world. In 2006, EcoSecurities was voted 'Best CDM Project Developer' by Point Carbon and readers of Environmental Finance.

EcoSecurities Global Consulting Services division has continued to work at the forefront of all the significant policy and scientific developments in this field, and has been voted the 'Leading Greenhouse Gas Advisory Firm' by readers of Environmental Finance every year since 2001.
