

Sempra Energy Europe Limited (SEEL)

The background of the slide features a series of high-voltage power transmission towers, also known as pylons, stretching into the distance. The towers are silhouetted against a vibrant sunset sky with shades of orange, red, and purple. The power lines are visible, crisscrossing the sky between the towers.

Successful since its inception in 1999 SEEL continues to be one of the leading multi-commodity trading companies in Europe.

Successful since its inception in 1999, Sempra continues to be one of the leading multi-commodity trading companies in Europe. Sempra is active in the majority of European energy markets including Central and Eastern Europe.

Sempra transacts extensively in power, emissions, gas, coal, oil and metals markets. Our dynamic and innovative team offers expert tailor made risk management solutions for financial and physical products, for both consumers and producers.

Sempra's global emissions business is a major participant in the European Union Emissions Trading Scheme (EUETS) and in the Kyoto Project-Based Instruments Market.

Sempra engages in the wholesale market for physically settled futures, options and forward emissions contracts as well as in the spot markets.

In addition, Sempra engages in the Kyoto market for Primary Certified Emissions Reductions (CERs) and Emissions Reduction Units (ERUs), as well as Secondary Certified Emission Reductions (SCERs). Sempra also offers debt and/or equity finance for CER/ERU projects
