

## “I helped my office save costs and the environment”

(Findomestic Bank, Branch of Milan, Italy)

By simply refurbishing our offices with Philips SmartForm TBS460 luminaires in combination with MASTER TL5 lamps, HF gear and lighting controls we saved more than 50% energy and reduced our CO<sub>2</sub> emissions. So, choosing responsible lighting has never been easier. It's a simple switch. [asimpleswitch.com](http://asimpleswitch.com)
