

## **Norsk Solkraft AS – Solar Power Solutions**

**Norsk Solkraft promotes and operates large scale solar power plants with experienced engineers, researchers and solar energy experts.**

### **Norsk Solkraft develops cutting edge, innovative photovoltaic equipment**

The patented Solkraft Cool Module with passive cooling technology increases module power output 10–15%. Solkraft aluminium Mounting Structures (SMS) for roof and ground installation cut installation time and maintenance costs.

Solkraft welcomes partners to join us in Europe, North America and the Middle East, please contact one of our offices below:
